

# Hackathon Open Data x '{"lang":"lb"}'

08/06/2023 to 09/06/2023

# Hackathon Open Data x '{"lang":"lb"}

This event, organized by the GovTech Lab in collaboration with the Information and Press Service (SIP), and the Zenter fir d'Lëtzebuenger Sprooch (ZLS) is a two-day collaborative hackathon.

The objective of the Open Data x '{"lang":"lb"}' is multidisciplinary collaboration to develop ideas for innovative tools that use and build on the linguistic data made available by the ZLS, including datasets from the Lëtzebuenger Online Dictionnaire (LOD) and data collected as part of of the schreifmaschinn.lu project.

This event is open to any participant with an interest in Open Data and data related to the Luxembourgish language.

Examples of profiles: data scientist, developer, UX designer, project manager, business analyst, researcher, data journalist, etc.

You can register as groups of 4-6 people or individually. In the latter case, individual participants can either join an existing team or create their own.

Please register as soon as possible, as the number of participants is limited!
