des Députés
GRAND-DUCHÉ
DE LUXEMBOURG

Hackathon Open Data x Democracy in Action: two days of exploration, creativity and impact at the GovTech Lab

The *Hackathon Open Data x Democracy in Action* organised by the GovTech Lab in collaboration with the Information and Press Service (SIP) and the Chamber of Deputies is the must-attend event for curious minds, creators and Open Data enthusiasts.

The Chamber of Deputies of the Grand Duchy of Luxembourg exercises the country's legislative power. It is fully aware of its duty of transparency. Parliamentary proceedings must be accessible to as many people as possible.

Over the last few years, the Chamber has been publishing ever-increasing, richer, and more comprehensive Open data. This hackathon organised by the GovTech Lab and SIP will be an opportunity to put this approach into practice and make the most of it.

When? June 5-6 2025 at GovTech Lab.

Why participate?

– **Multidisciplinary collaboration:**
Join a diverse community of talents: data scientists, developers, UX designers, project managers, data journalists, business analysts and many more. Together, we will explore the data provided by the Chamber of Deputies.

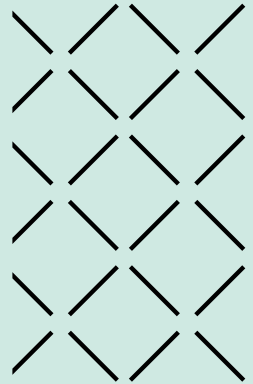

- **Innovation for democracy in action:** Transform the data of the Chamber of Deputies into innovative tools! Come up with practical solutions that make the most of open data, such as data visualisations, AI tools, etc.

- **Networking and opportunities:** Meet experts, exchange ideas, and create lasting links with industry professionals.

Who can take part?

Anyone! Whether you're a passionate individual or a group of 4-6 people, we invite you to join this hackathon. You can form your own team or join existing groups.

Don't hesitate to register and share this event with your network - places are limited, so don't delay!!

Register now via [this link](#).

For groups, please register each participant individually.

Agenda

// DAY 1

9:00am - 09:30am: Arrival of participants

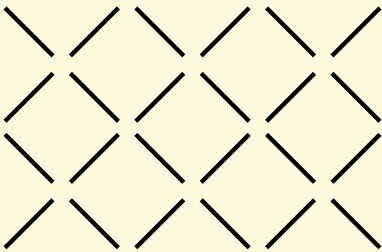

9:30am - 10:00am: Hackathon schedule & group creation

10:00am - 10:40am: Presentation of data sets

10:40am - 1:00pm: Hacking

1:00pm - 2:00pm: Lunch

2:00pm - 8:00pm: Hacking (meal included around 7:00 pm)

// DAY 2

8:00am - 09:00am: Arrival of participants

9:00am - 13:00pm: Hacking

1:00pm - 2:00pm: Lunch

2:00pm - 4:00pm: Hacking & pitch preparation

4:00pm - 5:00pm: Pitching sessions

5:00pm - 7:00pm: Networking & drinks
